The Honorable Michael L. Parson  
Governor of Missouri  
State Capitol  
Jefferson City, Missouri 65101

Dear Governor Parson:

I am pleased to submit the Appropriation Activity Report of the State of Missouri for the appropriation year July 1, 2023, through July 31, 2024.

This report, together with the annual combined financial report of the Missouri Department of Revenue and the Office of the State Treasurer, will fulfill the statutory requirements for financial reporting under Section 32.060 of the Missouri Revised Statutes.

These statements present a comparative analysis of revenues to expenditures and appropriations to expenditures for Appropriation Year 2024. This report also includes a detailed analysis of appropriations and expenditures by departments, fund groups, and major categories. This report is prepared on a budgetary (non-GAAP) basis of accounting. Under the budgetary basis of accounting, revenues are recorded when cash is received and expenditures when the liabilities for them are recorded.

Sincerely,

A handwritten signature in cursive script that reads "Stacy Neal".

Stacy Neal  
Director

OPERATING COSTS AND FLOW THROUGH PAYMENTS BY DEPARTMENT  
ALL FUNDS  
APPROPRIATION YEAR 2024**

---

Each year State departments receive appropriations. These appropriations include expenditures to operate the department, expenditures made for the benefit of other departments, and distributions to other entities such as local governments or school districts. The "operating costs" are the expenditures made from the department's appropriations which are used to provide that department's services. The "flow through payments" includes expenditures used to fund other entities' or other departments' expenses and distributions to individuals, other entities, or other departments for ultimate expenditure.

An analysis of an agency's operating costs gives a better indication of its effectiveness because operating costs are directly controlled by the agency's management. Flow through payments are normally the result of statutory or grant requirements. The spending of these moneys is more directly controlled by the entity or department which receives the flow through moneys.

The schedule on the following page shows that the moneys appropriated to an agency are not totally used for operation of that agency. This schedule shows appropriated expenditures for appropriation year 2024. However, these figures do not include appropriated expenditures of \$1,680,232,378.33 for refunds for overpayment of taxes and fees or investment of State money.

Expenditures for retirement, social security, health care, reimbursements to Employment Security, and statewide insurance in the amount of \$1,642,588,709.13 have been allocated to the various departments. Most of the funding was appropriated to the Office of Administration.

The expenditures for debt service are segregated as they represent operating expenditures of the State as a whole. These expenditures are normally administered by the Office of Administration.
